

CONFIRMATION OF COMMITMENT BY OWNER	Form A1
--	----------------

Project Description:	
Project Address:	
Application No.:	

WHEREAS Section 8(g) of the Town of Oromocto Building By-Law 613 requires that the project described above be designed and reviewed during construction by an *architect, professional engineer* or both that are authorized to practise in New Brunswick;

The Owner, being the person who intends to construct or have the *building*, or part thereof, constructed hereby warrants that:

1. The identified *architect* and *professional engineers(s)* have been retained to design the *building*, or part thereof, and to provide general reviews to determine whether the construction is in general conformity with the plans and other documents that form the basis for the issuance of a building permit, in accordance with the performance standards of the Architects' Association of New Brunswick (AANB) and the Association of Professional Engineers and Geoscientists of New Brunswick (APEGNB);
2. All general review reports by the identified *architect* and *professional engineer(s)* will be forwarded promptly to the *Authority Having Jurisdiction* or available on site for the review by the *Building Inspector*, and
3. Should any retained *architect* or *professional engineer* cease to provide general reviews for any reason during construction, the Authority Having Jurisdiction will be notified in writing immediately, and another *architect* or *professional engineer* will be appointed so that general review continues without interruption during construction.

FIELD REVIEW COMMITMENT BY ARCHITECT		Form A2
Project Description:		
Project Address:		
Application No.:		
WHEREAS Section 8(g) of the Town of Oromocto Building By-Law 613 requires that the project described above be designed and reviewed during construction by an <i>architect, professional engineer</i> or both that are authorized to practise in New Brunswick; This is to advise that I am the <i>architect</i> retained by the owner or prime consultant to perform the Field Review for the ARCHITECTURAL DESIGN requirements. I hereby confirm, that for the Architectural Design Requirements: 1. I will review the architectural shop drawings to determine general compliance with the design documents. 2. I will review any changes to the architectural design during construction to determine that the changes conform to the requirements of the <i>Code</i>; and 3. I will provide a completed “Confirmation of Construction Field Review” (Schedule A8) to the <i>Authority Having Jurisdiction</i> after Substantial Performance of the project. Please be advised that I may delegate some or all of my responsibilities associated with the Field Review of Construction to another authorized agent by the undersigned where it is consistent with prudent professional practice to do so. The functions will however be performed under my knowledge in accordance with the Act Respecting The Architects’ Association of New Brunswick. The undersigned shall notify the <i>Authority Having Jurisdiction</i>, in writing as soon as practical, but no later than 5 working days if the contract for Field Review of Construction is terminated at any time during construction.

CONFIRMATION OF CONSTRUCTION FIELD REVIEW		Form A8	
Project Description:			
Project Address:			
Permit No.:			
WHEREAS Section 8(g) of the Town of Oromocto Building By-Law 613 requires that the project described above be designed and reviewed during construction by an <i>architect, professional engineer</i> or both that are authorized to practise in New Brunswick; THEREFORE, the applicable professional declares that: I am the Professional who completed the form titled, “Field Review Commitment”, for the discipline as identified below, or the successor to the Professional who completed said form. Field review of this discipline, at intervals appropriate to the stages of construction, was conducted for the duration of construction. The construction is in general conformance with the plans and other documents that formed the basis for the issuance of a building permit. All approved changes, to this discipline’s design, during construction conform to the requirements of the Code. The project is now ready for its intended use.
