Hazards of Feeding Wildlife in an Urban Area

The Town of Oromocto does not encourage the feeding of wildlife. This practice almost always carries with it negative consequences for the wildlife involved. There are also a number of safety and social concerns for the public, such as the potential increase in vehicle collisions, as well as damage to property and nuisance problems.

Although people who feed wildlife do so with the best of intentions and feel they are looking after the welfare of the wild animals, they should be aware that wildlife should remain wild. Wildlife should derive their food and shelter from natural habitats and under natural conditions. This will help maintain natural adaptations that ensure the long-term survival of the animals themselves, and of the species.

For more info, please visit www.oromocto.ca/page/widepage/By-Laws for By-Law 417 A.

The general rule is: "Do not feed wildlife."

ATTENTION PET OWNERS

As per Town By-law 417 **dogs & cats** "running at large" or an animal unleashed or unharnessed on any property other than the owner's, excepting those participating in a sanctioned show or event or at a designated off-leash park, is prohibited within Town limits.

Please leash your dog & cat in public spaces.

As per Town By-law 417, if an animal defecates on any public or private property, other than the property of its owner, the owner shall remove such feces.

Please be responsible and clean up after your pets.

To register with Patient Connect NB for a primary care provider, please call **811** or visit www.gnb.ca/patientconnectNB.

- Patients will need to provide their name, address, phone number and Medicare number.
- A number of health-related questions will be asked.
- The registry is on a first-come first-serve basis.
